Arizona Governor Says He Will Save All of His Troubles at Once.

Phoenia, Aria, March 12 .- When my egular summer case of hives beginn to eme on FII call the legislature together in special session and have all to

In special session and have all my troubles at once.

This was the only statement that governor George W. P. Hunt would make in regard to his plane for calling the extra legislative sessing that it considered almointely recovery.

Thursday night the begislature adjourned without passing any general appropriations bill, without emacting any prohibition legislation or coaching a land code. Arizona can atruscile along very well without any prohibition law, for she has a constitutional amendment that has been held to be self executing. To leave the state lands without any adequate administration for two years, and to suspend the selection of grant lands for that period, would mean the lose of hundreds of thousands of dollars in the end.

Must Have Appropriations.
